Greetings from SJRS, Sriperumbuthur

Education is the important issue in one's identity. It is the key to success in the future and to have many opportunities in our life. Education has many advantages for people. It illuminates the mind and make them to think higher and to plan.

School is a platform where as far as possible maximum exposures of various skill sets like problem solving, leadership, adaptability, time management, co-scholastic development and many more must be given.

Our educational philosophy is very simple, Every child has the right to have high-quality education, every child is able to learn and it is our task to give every student the opportunity to seek and apply his or her full potential.

Students are active members of the learning community. They learn to set goals and solve problems both independently and together with others. Linguistic and physical elements and the use of different senses are essential for thinking and learning. While acquiring new knowledge and skills, students learn to reflect on their learning and emotions.

SJRS striving hard to make the best possible effort to inculcate strong values combining With Academics and Extra – Curricular Activities. Converting every individual into a self – reliant and independent citizen.

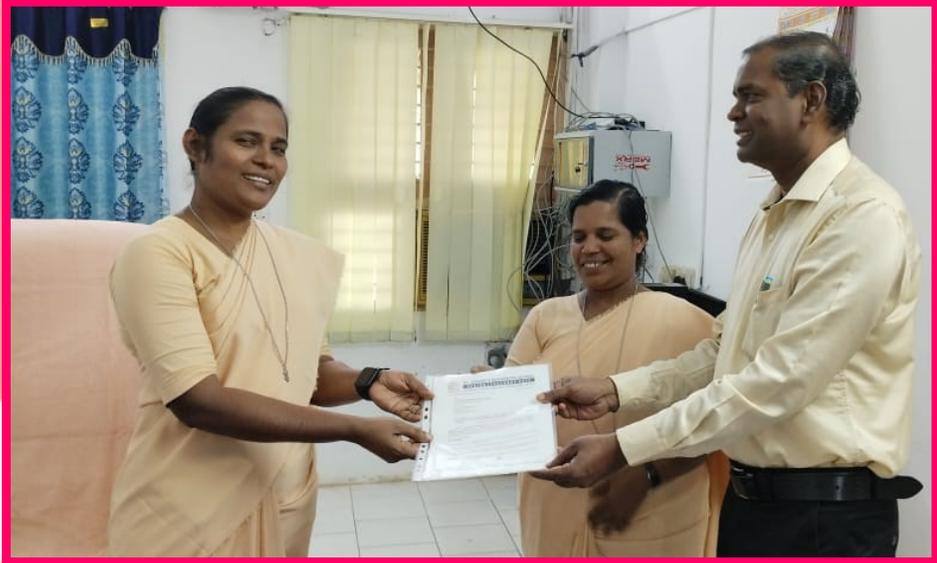

I feel proud to express that the school is performing extremely well in all the aspects to ensure academic and human excellence with the blessings of Almighty that journey towards Excellence.

I am confident that we ST. JOSEPHINES, with the support of Management, Staff and Student, will continue to grow, prosper and reach new heights. I assure you that no stone will be left unturned in helping you to realize your cherished Goals.

Wishing you all the very best
