# Principal Message

**Mr. A.Lourdusamy Antony**

**Dear Staff, Parents and Children of SJRS,**

Greek Philosopher Heraclitus once said **"It is impossible for the same man to step into the same river twice. No matter how short be the interval between the first and the second stepping, both the man and the river have changed."** Change, then, is the essence of life. It is immanent and a universally occurring phenomenon. So it is with the behavioral patterns exhibited by the students nowadays. There was a time when the teacher was the most respected figure in the society. The words uttered by the teachers would be the ultimate truth for the students and they would even counter their parents by upholding the veracity of their teacher's statements. A slight, accidental touch by the teachers while walking in the class would make the child feel so special throughout the day.

But unfortunately, a morally upright student is now a thing of past .Crass competition and selfish materialism has given birth to very self-centered students for whom values like respect, love ,kindness and so on obviously take a backseat. Nowadays the children get everything very easily. They are rarely denied of their wants as a result of which they lose the value and worth of anything. This is reflected in their behavior too. They are not prepared to take 'no' for an answer. **It is true that as they mature, they realize that the larger society cannot be tailor made according to their designs. But then it becomes too late and the students become anomic.**

**It is here that education plays an important role.** The curriculum should very subtly integrate moral values. It should be such that it prepares a smooth sailing of a child from student life to being a worthy member of SJRS and the country. Even today, when compared to the rest of the world, our school St Joseph's Residential School is safe for the students. Therefore, each one of us- **the parents, teachers and the students- should join hands to build a better society, with a bright future**
